

Plum Accounting Limited

Plum Accounting was founded by Sally O’Gara in 2017 with a purpose of making a real difference to business owner’s lives. More than ‘just an accountant’, they are passionate about helping owners of small to medium sized businesses to build them to be successful and profitable, so that their clients can achieve their business and personal goals and live the lifestyle they choose.

On initial contact from a prospective client, Plum Accounting undertake a fact-find, including a short discovery call, where they find out about:

- The owner
- The business
- What works well for them
- What challenges they are facing

If Plum Accounting are a good fit, they will arrange a Proposal Meeting, where they carry out a valuable assessment of the accounting function of the client’s business. Then, they suggest the services appropriate for the size and stage of the client’s business, which they can agree by means of an electronic proposal at the meeting. Fees are fixed and agreed in advance and the payments are set up by monthly direct debit.

Plum Accounting’s business goals for this year are to double turnover and offer some seminars on topics such as ‘How to grow your business’ and ‘Cashflow management’.

If you are interested in hearing about these seminars or in finding out more about how Plum Accounting could assist in the growth of your business, please contact sally@plumaccounting.co.uk

How OBC have helped Plum Accounting

As a virtual tenant since 2017, Plum Accounting have been able to access free business support from [Invest ESSEX](#), and the advice they have given has been very valuable.

OBC has also assisted with Plum Accounting's website development by providing a contact to creative and digital content agency, [Pillory Barn](#). After looking at OBC and Invest ESSEX's website, Plum Accounting became interested in the website developers who created the two websites. Plum Accounting then contacted Pillory Barn and they are now working together.
